- Many questions in the form make use of a mutually exclusive yes/no checkbox:

Yes No (Clear Answer)

Because you cannot 'uncheck' a value once you've checked it, clicking the **Clear Answer** checkbox will clear out the Yes/No value. The **Clear Answer** checkbox will not display on the form when printed.

- Date Fields: Some fields are placeholders for dates. You can type in any date or you can use the popup calendar to choose a date.

Figure 2: Popup Calendar displays the current date

The calendar is available by clicking on a date field. A down-arrow button will display to the right of the field. Clicking the down arrow will display a calendar. The calendar defaults to the current date. Selecting a date from the calendar will automatically insert it into the date field.
